What You Need To Know (The Fine Print):

What You Get:

- These packages have been created to assist first time BYOD laptop buyers (i.e., those with children moving into high school and requiring a BYOD device), or families wishing to obtain a cost-effective method of payment for a BYOD device, with peace of mind for quality, reliability, security, damage and replacements.
- All packages include initial consultation with the buyer and the student (if applicable), collection of confidential user data for device setup, device configuration and app installation, security apps installation and Parental Controls set up and enabled (unless otherwise advised).
- An initial "new device training" & support session (1-2hrs) is included and provided Free of Charge. Additional sessions can be purchased at \$50/hr.
- **Ongoing Unlimited Warranty:** If the device is damaged beyond repair, as deemed by both ACL and the extended warranty provider, or where the cost of repair is higher than the current value of the device, the Bond will be forfeit. A NEW device can be provided with a NEW Bond deposit payable prior to delivery. The hire agreement can then continue as before.
- After 18 months of good payment history (less than 10% late payments), and provided the original device is in reasonable working condition, the user is entitled to a free upgrade or replacement to a new same tier device. No new Bond is payable.
- Package is ongoing. No lock-in contract. Cancel any time by simply returning the laptop in reasonable working condition (see below), else the Bond will be forfeit.

What You Pay:

- All hire tiers incur a 2-month Bond deposit payable upfront, for hirer protection. (See chart below for Bond amounts.) Bond will be refunded in full, at the cancellation or termination of the hire, providing the device is still in reasonable working order. (See below for more details). *Don't have the upfront money for the Bond? Don't stress! Bond deposit can be paid in weekly installments, prior to device hire.*
- Device Hire payments can be made weekly (recommended), fortnightly, or monthly, upfront. (See payment table below). Payments are processed through the Square platform, using a recurring payment agreement. All hire fees are inclusive of all taxes and bank processing fees. No hidden extras!
- Payment Schedule:

	Weekly	Fortnightly	Monthly	BOND
Tier 1 (Slim 3)	\$29.00	\$58.00	\$126.00	\$252.00
Tier 2 (Flex 5)	\$44.00	\$88.00	\$191.00	\$382.00
Tier 3 (Yoga 7)	\$59.00	\$118.00	\$256.00	\$512.00

- If payment fails, 2 attempts will be made to retake payment, within 48hrs, else a \$10 fee applies to all days where payment has not been made past the original payment due date. (\$70 maximum fee would be payable before hire contract is suspended).

- Failure to make any payments after 7 days (from the original due date) will see the device repossessed, unless alternative arrangements have been made. (We will ALWAYS work with families to minimise any inconvenience to the student.) The contract can be restarted only after all previous fees have been paid. The Bond deposit will be held until all overdue payments have been made, and then returned if the contract is being terminated and only if the device is in reasonable working condition.
- Discounts are available for families with multiple children requiring BYOD devices, as per the following schedule:
 - 2 devices : 10% discount off total hire fees,
 - 3 devices : 15% discount off total hire fees,
 - 4 devices : 20% discount off total hire fees

Warranty and Damage Cover:

- Reasonable working condition refers to minimal wear and tear, no physical damage to the unit which impairs its operation and no identified power or operational issues.
- If the device is found faulty, or fails to work as expected, it will be replaced or repaired under standard Australian Consumer Law (ACL) or Extended Product Care Warranty, where applicable. If it is taken away to be repaired or replaced, a substitute unit will be provided for daily use, until the original device has been returned in working condition or a new replacement device is provided.
- The device's ACL warranty protects against all electrical, electronic and mechanical faults your product may suffer. Your device's extended warranty also covers faults caused by dust, internal humidity, wear and tear and any defects in materials and workmanship.
- Standard or extended warranty does not cover any faults caused by physical damage, product misuse or using the product outside the manufacturer's guidelines. Also, it does not cover products that have incurred a fault due to electrical surges and software issues (e.g., viruses or malware). Extended Warranty Exclusions also include fault or failure of the device due to:
 - Accident, misuse or abuse of your device
 - Transportation, repair, dismantling, installation or other modification by any person other than Virtuoso IT or its authorised service agents
 - Liquid penetration
 - Infestations of vermin, pests or insects
 - Rust, corrosion or mould
 - Failure or consumption of consumables, including but not limited to batteries, cables, fuses, and bulbs
 - Failure of any accessory (e.g., chargers, cords, cables, mouse, game controller, additional monitor) used in conjunction with your device
 - Screen burn (where a residual image is left on a screen after displaying the same image for an extended period)
 - User or manufacturer installed software or firmware
- [In the instance where the standard or extended warranty does not cover damage, for a replacement or repair of the unit, Virtuoso IT will replace the unit as per the "Ongoing Unlimited Warranty" listed above, with a new Bond deposit payable.](#)
